

## **Investment in NZ natural products companies**

As part of their North American Nutrition Capital Network (NCN) project NZTE is canvassing companies interested in presenting at NCN's investor meeting in April. NCN's mission is to facilitate the financing and partnering process for growth companies, and introduce investors to the next generation of successful brands and technologies in the nutrition, health, wellness, natural/organic and green product industries.

NCN has a mix of financial and strategic investors attend their meetings. Strategic partners include The Coca Cola Company, Lonza, Nestle, Danone, Kerry, Martek and Stratum Nutrition. More information on NCN can be found on their [website](#). If this sounds interesting to you and you would like further information, please contact [Angela Traill](#) at NZTE.
